

Union Plastic Public Company Limited
Review report and interim financial information
For the three-month and nine-month periods ended
30 September 2020

Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of Union Plastic Public Company Limited

I have reviewed the accompanying financial statements in which the equity method is applied of Union Plastic Public Company Limited which comprise the statement of financial position as at 30 September 2020, the related statements of comprehensive income for the three-month and nine-month periods then ended, and the related statements of changes in shareholders' equity and cash flows for the nine-month period then ended, as well as the condensed notes to the interim financial statements. I have also reviewed the separate financial information of Union Plastic Public Company Limited for the same periods (collectively "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 Interim Financial Reporting. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 Interim Financial Reporting.

Emphasis of Matter

I draw attention to Note 1.2 to the interim financial statements. The Coronavirus disease 2019 (COVID-19) pandemic is adversely impacting the automotive industry. This has resulted in a decrease in the Company's orders from customers, which significantly impacts the Company's financial position, operating results, and cash flows at present, and it is expected to do so in the future. However, the impact cannot be reasonably estimated at this stage. The Company's management has continuously monitored the ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and will record the impact when it is possible to do so. My conclusion is not modified in respect of this matter.
