

Environmental Activities

The company is highly aware that its business operations may impact the environment, society, and surrounding communities. Therefore, it is committed to improving environmental management systems continuously. The company has established policies to promote and support environmental initiatives, ensuring ongoing participation in environmental activities. These initiatives start within the company and extend outward to the broader society, as follows:

Inspection of dust, noise, and heat as required by law.

The “Transforming Waste into Merit” project: The company has donated used plastic bottles to Wat Chak Daeng for recycling into monk robes and ceremonial cloths.

Safety & Environmental Day

Gemba Award

The “Beautiful Canal, Clear Water” project aims to clean Khlong Saen Saep for the surrounding communities.

Participated in the “Join Hands to Plant Trees & Build Check Dams” activity with customers under the “Ban Noen Sung Community Forest Project” in Prachinburi Province.

The company promotes and supports a Krathong-making competition using biodegradable natural materials that are environmentally friendly.
